***MANAGING
THE GLOBAL ENVIRONMENT***

JANUARY 1990

INTRODUCTION

The Air Force Academy Political Science Department will host the 32nd Air Force Academy Assembly entitled "Managing the Global Environment" from 12-16 March 1990. To assist participants, the Reference Department of the Air Force Academy Library prepared this bibliography. Citations include books, journal articles, report literature, government documents, and a few newspaper articles. Books and government documents in this bibliography have call numbers pertaining only to the Academy Library. A majority of the citations covers information from 1980 to the present. Citations do not include specific topics related to air pollution, water pollution, and hazardous (toxic) waste.

Compilers of this bibliography were Louis C. Bassetti, Sue E. Neufeld, and Frances K. Scott, who used the Pro-Cite Bibliographic software package. Mary Ellen Haug assisted with editing and with the transfer of records from online sources using Bibliolinks software.
